PRODUCTS FOR THE FOOD INDUSTRY

Product

Description and uses

Available Quantities

Notes

Ketobac

Disinfection agent with extensive range of effectiveness based on multi chain quaternary ammonium compounds. The product is highly compatible with materials and hard water.

For surface disinfection in bathrooms and in the food industry, pumping disinfection of pipelines, feet and boot disinfection and immersion disinfection of small parts.

5 l container- KET015
20 l container- KET010
100 ml (10) - KET017

SANS 1853

Ketogard

Ready to use disinfection agent, effective against all bacteria (except spores), fungus and against most viruses. Evaporates without residues, no need for rinsing.

For work surfaces and tools in food, medical and sanitary areas e.g. chopping boards, meat cutting machines, transport wheels, scales, solariums.

5 l container- KET205
20 l container- KET020

Ketoxide

Disinfection agent based on sodium hypochlorite. Effective against all bacteria, fungus and viruses.

For disinfection in poultry abattoirs and other food preparation areas where a high reactive chlorine disinfectant is indicated.

20 l container- KET110

Ketovir

Disinfection/cleaning agent with extensive range of effectiveness based on multi chain quaternary ammonium compounds and glutaraldehyde. The product has superior hard water and organic soil tolerance. Highly effective (bacteria, fungus, spores and viruses).

For surface disinfection of livestock transport vehicles, livestock pens and holding areas, and poultry hatcheries/ breeding facilities.

5 l container- KET155
20 l container- KET150

Ketacid foam

Strongly acidic, heavily foaming cleaning detergent concentrate. Removes heavy lime coatings, earth and sand residues, proteins and grease.

For basic cleaning of floors, showers and walls. Outdoor cleaning of bottling and packing plants, stainless steel containers, pipelines, etc.

5 l container- KET135
20 l container- KET130
100 ml (10) - KET137

Notes

Ketovapor foam

Strongly alkaline, heavily foaming cleaning agent. Offers highly effective dissolving characteristics for grease, proteins, starch and other organic compounds.

For basic cleaning of floors, showers and walls. For outdoor cleaning of bottling and packing plants, stainless steel tanks, pipelines, etc.

5 l container- KET055
20 l container- KET050
100 ml (10) - KET057

SANS 1828

Ketovapor foam chlor

Strongly alkaline cleaning detergent with pronounced foaming, contains active chlorine. Removes dirt based on fats and proteins. Has strong bleaching and disinfection effect.

For use in the food processing industry especially abattoirs and large butchery enterprises.

5 l container- KET063
20 l container- KET060
100 ml (10) - KET067

SANS 1828

Ketoprox

Stain remover based on hydrogen peroxide.

For the removal of blood and other stains from walls and floors in abattoirs, food processing plants etc. Also used for the removal of stains in laundry applications.

30 l container- KET100

Ketopol

Slightly alkaline, heavily foaming cleaning agent. Offers highly effective dissolving characteristics for grease, proteins, starch and other organic compounds.

For basic cleaning of floors, showers and walls. For outdoor cleaning of bottling and packing plants, stainless steel tanks, pipelines, etc.

5 l container- KET145
20 l container- KET140

SANS 1828

Notes

Ketopur

Disinfecting liquid hand soap based on natural soap with hand care additive.

For the removal of soiling from the hands in office, kitchen, washroom environments etc Can be applied using wall mounted soap dispensers, bottles or dispenser pumps. Allow a minimum contact time of 30 seconds

5 l container- KET0705
20 l container- KET070

Ketogel

Sanitising alcohol hand rub. For the removal of soiling from the hands in office, kitchen, washroom environments etc.

Can be applied using wall mounted soap dispensers, bottles or dispenser pumps. Apply directly to hands, rub into hands to assist in the removal of soiling, rinsing with water is not necessary. In cases of heavy soiling, wash hands using Ketopur, rinse with water.

5 l container- KET080

The best products are no use without the right chemistry. Therefore Industroclean develops its own cleaning and care products, optimally harmonised with the individual cleaning methods. Dosing is as simple as can be: as little as possible, but as much as required for environmentally friendly deep cleaning.

The Industroclean range of products for the food processing industry are manufactured under ISO9000 QMS systems and have been submitted for SABS 1828 or 1853 certification.
